

Schneider National Carriers, Inc. Checklist - High Value Loads

To haul this shipment, you must fill this out entirely and send it back to Schneider National Carriers, Inc a minimum of 3 hours prior to pick-up appointment. You must read and initial the following guidelines and agree to the following procedures or the pick-up number will not be released.

Varun Driver(s) and Carrier are fully aware this shipment must never be left unattended and never stop within 200 miles of the origin. In the event of a breakdown and/or the shipment cannot be secured, and/or the driver notices any suspicious activity; the driver must call their broker immediately. If afterhours/weekend, 855-476-4786 and email STMULTA@SCHNEIDER.COM. Truck and/or Trailer will never be left unattended.

Varun If the driver(s) needs to stop for a break during transit, this needs to be in a secured lot. Addresses must be provided to your broker prior to pick up.

Varun In the event of a break or delay in transit, both driver(s) and carrier listed below are fully aware that they MUST backup the trailer against a wall or structure which makes it impossible for someone to access the trailer. The location must also be communicated to your broker or afterhours contacts above. NO EXCEPTIONS.

Varun The driver(s) and carrier listed below are fully aware that both driver(s) must have a working cell phone and will download the Truck Tools App. P44-ELD, P44-API or EDI are the only exceptions for Trucker Tools Tracking not being set up. Automation must be complete for tracking prior to the release of the pick-up number. NO EXCEPTIONS.

Varun Product will be palletized. 250K Cargo insurance is required. Loads cannot be split in any way or transloaded from the original trailer that picked up the shipment.

Varun Trailer must be sealed by the shipper prior to driver departure from pickup. The seal number must be written on the BOL and signed by shipper. That same seal number must be in-tact at delivery to the consignee. Driver must not break the seal.
